

Darien Police Department

Annual Report

2018

PUBLIC SAFETY MISSION

The mission of the Darien Police Department is that of public safety. Public safety as Darien Police Department views it, is not just in the public, but in one's home and place of business, the driving public, etc. The Darien Police Department takes our oath to uphold the law seriously. The means by which public safety is ensured takes many methods which include not only arrests for criminal acts that have already occurred, but prevention and intervention strategies.

Our mission statement states: The mission for every member of this department is to consistently seek and find ways to affirmatively promote, preserve and deliver a feeling of security, safety and quality services to the members of our community in addition every member of this department is to consistently work with and promote cooperation within other city departments

Part I Violent Crime

Violent crime remained consistent in 2018 as compared to 2017 with seventeen reported violent crimes in both years. It is sad to report that there were two murders in 2018. Both murders occurred during one incident where an offender killed his wife and one of his children before killing himself. There were sixteen sexual assaults reported. However, seven of them did not occur in Darien and were referred to the proper jurisdiction. One of the incidents was determined to be unfounded leaving eight sexual assaults that had occurred in 2018 a 166% increase from 2017. Most involved juvenile offenders assaulting juvenile victims. Four of the eight cases were screened through the States Attorney's office and charges were not approved. Four cases were referred to the Children's Center for investigation and are pending. Robberies are down significantly. An arrest was made in one of the robberies and the other robbery investigation is pending lab results. Aggravated Assault and Battery are down by nearly half.

<u>Crime Type</u>	<u>2013</u>	<u>2017</u>	<u>2018</u>	<u>1 Year Trend</u>	<u>5 Year Trend</u>
Murder	0	0	2	200.0%	200.0%
Criminal Sexual Assault	4	3	8	166.0%	100.0%
Robbery	3	5	2	-60.0%	-33.0%
Aggravated Assault & Battery	4	9	5	-44.4%	25.0%

Part I Property Crime

Darien residents saw an 8% decrease in the amount of burglaries from last year. Of the 23 burglaries, 10 were residential burglaries. Motor Vehicle Theft saw a decrease of six from last year. It is extremely important for residents to remember to lock your vehicle and take the keys out of the car. Approximately 93% of thefts occur when the property was unsecured.

I've discussed the crime crew coming out from Chicago. Many of those subjects have been arrested over a period of time and this particular crew burglarizing and stealing cars has diminished significantly. Though the group may not be as active it is always best for the community to help themselves and their fellow community members by secure their items – trunk it or take it is a good thing to remember.

<u>Crime Type</u>	<u>2013</u>	<u>2017</u>	<u>2018</u>	<u>1 Year Trend</u>	<u>5 Year Trend</u>
Burglary	55	25	23	-8.0%	-58.2%
Theft	230	229	164	-28.4%	-21.7%
Motor Vehicle Theft	4	15	9	-40.0%	125.0%
Arson	0	1	0	-100.0%	0.0%

Total Crime

Total violent crime stayed the same comparing 2018 to 2017. Total property crime is down 28.5% from 2017. Total crime is simply violent crime and property crime taken together. Total crime is down 26.8%.

<u>Crime Type</u>	<u>2013</u>	<u>2017</u>	<u>2018</u>	<u>1 Year Trend</u>	<u>5 Year Trend</u>
Violent Crime	11	17	17	0.0%	54.5%
Property Crime	294	270	193	-28.5%	-34.4%
Total Part One Crime	305	287	210	-26.8%	-31.1%

Other Crime

Nuisance type crimes (criminal damage to property, criminal trespass to property, disorderly conduct, etc.) decreased 12% and arrests increased 15.2%. Domestic batteries increased 19.2% though arrests are up 18.5%.

Traffic Crashes

The safety of the driving public is important and Darien saw a 1.1% decrease in accidents or 7 less crashes in 2018 compared to 2017. Two major issues that continue to be causal factors for crashes are distracted driving and aggressive driving. The elimination / reduction of these issues would significantly reduce traffic crashes. Officers' enforcement of distracted drivers increased 68% in 2018 compared to 2017. Moving violations went up by 23.9%. Enforcement is appropriate and will continue, but real change will come with voluntary compliance with the rules of the road by drivers.

DUI accidents went down by 80% (numeric change of 8). DUI enforcement stayed relatively the same at a 1.2% decrease or one less arrest.

COMMUNITY-ORIENTED POLICING

This term is elusive and means many things to many people. It is a philosophy not an organizational unit or specific program(s). As a philosophy it is impossible to measure. However, some individual activities can be measured. Each day our officers are involved in the community. Here are some specific examples.

We had a great partnership with Safety Village this year. Officers discussed with the attendees what an officer does, how the police help the community, what an officer looks like in uniform, that kids should not be afraid of police, etc. Also discussed was proper use of 9-1-1, stranger danger, gun safety and seatbelt safety. The attendees saw a police car and the ballistic vest. The kids were engaged asking a lot of questions. We handed out safety coloring books, badge stickers and gave them "Hugs Not Drugs" suckers. Over 100 kids between 5 and 10 were in attendance.

With approximately 42 licensed properties we have had no incidents where we needed to use the Crime-Free Multi-Housing ordinance to correct deficiencies.

Twenty-five kids were involved with Shop with a Hero in December. Darien personnel participating were Dollins, Yeo, Topel, Liss, Norton, Skweres and Piccoli. Most employees attended on their own time. We have participated in this worthwhile program for over 10 years. Walmart and Target are wonderful sponsors for this event. In addition to the officers participating they and their fellow employees donate money to the cause. The Darien-Woodridge Fire Department was heavily involved and are great partners.

Sworn officers, auxiliary officers and community service officers made nearly 400 visits with individuals visiting Community Park.

Officers ensured the safety and security of homes by checking on homes more than 1,600 times while people were away on vacation. Officers conducted nearly 500 business checks during times the businesses were closed.

Officers visited schools a total of 237 times spending 85 hours with students and staff. These 98 hours were spent on such activities as school lock down drills and walk & talks.

There are nearly 600 elderly residents who have registered themselves with the police department elderly services program. Our Elderly Service Officers assisted approximately 25 cases ranging from hoarding, scams and medical matters.

There were numerous community engagement activities totaling 100 hours. Activities included walk & talks, block parties, tours, National Night Out, Coffee with a Cop, etc.

Darien is involved with a DuPage Group called Unity Partnerships. Their mission is to make a positive impact on the relationship between police and civilians. The group desires to create opportunities for interaction to foster mutual understanding of each other, erase negative stereotypes and develop paths for dialogue in the community. This year they conducted Town hall Meetings how to conduct oneself during a traffic stops – with a theme of comply then complain if felt wronged. During 2019 we're looking at conducting community discussions surrounding use of force by police.

HONOR

We do our due diligence to hire the best. Our officers must apply for a police position and after passing a physical fitness requirement are tested via a written examination and a structured oral interview then placed on an eligibility list. That eligibility list is good for two years. We are currently updating the list which expires in 2019.

We continually tried to hire personnel during 2018 16 officers on our eligibility list declined the position because they were hired by another agency or decided on a different life course. We had 14 candidates who were stricken for cause – failed to pass the polygraph, psychological or background phase of the hiring process.

We hired five officers in 2018 who went through a stringent basic academy training where both “hard” skills (driving, shooting, defensive tactics, law, etc.) are trained, but too are “soft” skills (emotional

survival, procedural justice, implicit bias, etc.) over the course of 15 weeks. After basic training the officers go through a rigorous 16 week on-the-job training, again looking for character and teaching competence.

When done with the hiring process – application, orientation, physical fitness testing, written testing, structured oral interview, polygraph, psychological, background investigation, medical examination and drug testing and by extension the training process – basic academy, field training and probation we are confident that we have done our best in hiring someone of very high character and one who has been trained to be very competent in handling police duties.

Employee Recognition

There were over 100 positive comments entered into our software for tracking employee recognitions during 2018 including 27 positive compliments from citizens and 18 compliments from other agencies. Our officer assigned to the Drug Enforcement Task Force received the Law Enforcement Excellence Award from the Chicago Crime Commission. Officers Rich Stutte and Simon Versis each received a Lifesaving Award for their efforts in two separate incidents involving the reviving of unresponsive subjects with the use of Narcan. Officers Dollins, Jump, Hruby, Throm and Somogye earned recognition from the Alliance Against Intoxicated Motorists (AAIM) for their exceptional DUI enforcement efforts.

Employee Discipline

We want to make sure we are honorable and do not shy away from enforcing good behaviors. It is easy to do in the Darien Police Department as we have well trained and strictly vetted officers who understand and live by their oath of office. With over 21,000 interactions some of which resulted in an arrest (over 350), or ticket (over 4,700) or other form of behavior modification we received two citizen complaints. There were five situations where a supervisor found it necessary to write a formal complaint against an officer. All situations were investigated and the officer appropriately disciplined.

Use of Force

Officers found it necessary to use force during nine encounters in 2018. After review, the officer's actions were found to be in compliance. During six incidents, the offender used personal weapons to resist or assault officers. In each of these situations officers responded to the attack by using personal weapons. Another incident involved a suspect with a knife and the officer responded by displaying a firearm. The subject was taken into custody without having to fire the weapon. Officers responded to an incident of a suspect reportedly in possession of a handgun. They encountered the subject with handguns displayed. Fortunately, the suspect did not have a firearm and the incident was resolved peacefully.

PERSONNEL

We had one sworn employee leave in 2018. Officer James Murphy with 21 years of service we wish him well.

We appointed five new officers to the Darien Police force in 2018.

Officer Jason Jairala was hired on January 15th. Officer Jairala had been employed as a security supervisor with the University of Illinois Hospital and Lead Security Officer with Rush University Medical Center. He studied at Wilbur Wright and Malcolm X Junior Colleges. He graduated from the Police Training Institute at University of Illinois Urbana Champaign on April 26, 2018.

Officer Matthew Giza was sworn in on March 26, 2018. He is an Army veteran who served honorably as a military police officer from 2004 to 2009. Most recently he was employed as a Federal Police Officer at the U.S. Department of Veteran Affairs. He graduated from the Suburban Law Enforcement Academy on July 6, 2018.

Officer Justin O'Brien was sworn in on June 20, 2018. He is a veteran of the United States Navy serving honorably for 4 years. He studied at DeVry University and Universal Technical Institute as a mechanic. His most recent employment was as an industrial equipment mechanic with Atlas First Access. He graduated from the Suburban Law Enforcement Academy on September 28, 2018.

Officers Candice Klein and Marshall Meyer were sworn in as officers on December 27, 2018. Candice Klein comes to Darien with experience as an Auxiliary Police Officer and part-time Emergency Management Officer with the Bridgeview Police Department. She earned an Associate Degree in Applied Science in Criminal Justice from Northwestern College in Bridgeview. Officer Meyer holds an Associate of Applied Science Degree in Criminal Justice from the College of DuPage. Both Officers are currently attending the Suburban Law Enforcement Academy with a graduation date of April 12, 2019.

We also hired part-time Community Service Officer (CSO) Madison Rynkar on September 12, 2018. CSO Rynkar works the weekend shift. She has a Bachelor's of Arts degree from North Central College majoring in Sociology with an emphasis in Criminal Justice.

It was important to be fully staffed. Much of this year especially during the summer months we were down four to six officers which is nearly 1/3rd of the patrol shift. We are currently fully staffed but two officers are in school and not ready for deployment until training is completed sometime in the fall.

ORGANIZATION

Generally

In addition to our patrol division working 24/7/365, we continue to have a detective unit, a School Resource Officer and an officer assigned to the Drug Enforcement Administration (DEA). The detective unit handles numerous cases including criminal matters, missing persons, juvenile issues, etc. Our School Resource Officer (SRO) is not in the school to arrest offenders though he can. Most of his day is spent on positive interactions by being in the halls at passing time, in the lunch room, or stopping in classrooms.

Drug Related

There are numerous functions and attempts to curtail the ills of drugs through enforcement, education and seizing of funds that were gained through illegal operations.

Our K9 Unit was involved in 42 cases within the city and 39 cases outside the city. The type of work included: 15 alerts for Cannabis, 1 alert for Cocaine, 2 alerts for Hash Oil and 5 alerts for drug equipment. The K9 performed 40 drug sniffs, 10 tracks, 5 residential drug sniffs, 3 building searches, 1 article search, 10 community engagements, 2 money sniffs, and 17 school searches. The K9 was involved in seizing \$380,000 and two guns. Also of note during one of the tracks the K9 found an offender who fled from police. During one of the open area searches the K9 found stolen property and bolt cutters. When the K9 handler located a stolen car the offenders started to flee but when the K9 was deployed the two offenders gave up.

The officer assigned to the DEA task force has done a great job being involved in major drug cases in and around the DuPage County area. The task force officer was involved in the seizure of more than \$1.6 million and we're waiting for our share of the disbursements on many of the cases.

DuMEG continues to be a great partner doing what they can to educate the public on the dangers of drugs and enforcing the law as it relates to drugs. Throughout DuPage County DuMEG seized a street value of drugs totaling \$3.1 million, mostly cocaine, heroin and prescription drugs.

9-1-1

DuCOMM continues to be a good partner dispatching 7,056 calls for service and monitoring and helping officers with 13,737 self-initiated calls for service. On average about 57 calls per day.

Evidence

In July of 2018, an audit of guns, money and drugs was conducted. The audit showed all items were properly logged and accounted for with no discrepancies. At the conclusion of that audit 29 firearms were turned over to a company that pulverizes firearms scheduled for destruction. The company video records the destruction of these weapons and is sent to our department which is retained as evidence of the destruction of these firearms.

In September of 2018 the department used the drug incinerator that was purchased in 2018 to destroy 178 items of drug and drug related items. This was the first use of this piece of equipment which addressed a long standing need for our department. Drug incineration has been a growing problem for police departments across the state, it has become difficult to find businesses to conduct the destruction and when a service is located the cost of the incineration is very high. Our department is now able to schedule drug destructions as needed. Drug burns are conducted per department policy which includes the requirement of multiple property room officers in attendance of the destruction of any items. All property officers in attendance sign off on a paper copy documenting each item destroyed and they then update all items in the evidence database.

In October of 2018 property room personnel completed a general audit of the property room over the course of two days using a 20% random selection of all property being held in our custody. At the conclusion of the audit it was determined all property was accounted for and properly logged with no discrepancies.

There were 1499 pieces of evidence were collected in 2018 of which 139 items were sent to the lab for analysis.

Training

In 2018 officers attended over 600 training courses, both in person and online for a total of 8,467 hours of training. There were a few specific areas of interest.

The first area of interest is training for an active shooter incident. Immediate Action Rapid Deployment (IARD) is a police tactic where patrol officers actively confront a developing high-risk crisis. This is opposed to patrol officers assembling a perimeter around the crisis zone and waiting for specialized response units to spearhead a resolution. All Darien officers are required to attend scenario based training at schools and other locations where they are instructed on various types of active shooter situations. In May of 2018 Rapid Deployment, Active Shooter and Tactical Medical Care was conducted.

The training session focused on active shooter response, tactics, medical (tourniquets and pressure bandages) and removal of injured subjects. In November 2018 Rapid Deployment, Active Shooter and Rescue Task Force training was conducted. Rescue Task Force is the concept of integrating the Fire Department with the Police Department in response to an active shooter incident. Tri-State and Dar-Wood Fire Departments attended the training.

The next area of interest is training in Mental Health – Crisis Intervention. The Illinois Law Enforcement Training and Standards Board (ILETSB) has provided state-certified Crisis Intervention Team (CIT) training to law enforcement officers throughout Illinois. Participants of this one week (40 hour block) of instruction receive intensive training on recognizing and addressing individuals in the community who have a mental illness or other behavioral disability. ILETSB trained officers are trained to provide an immediate and effective response to calls involving a mental health crisis. While not mandated, it is believed that approximately 15% to 25% of officers nationwide have attended CIT training. To date the Darien Police Department has sent 15 officers to this 40 hour class, 14 of which are still with the department, with an additional 8 officers scheduled to attend before the end of 2019. This will bring officers who will have attended the 40 hour course to 22 making our department's percentage at 64.70%, which is well above the national average.

All officers attend classes to address mental health and the State has mandated yearly training for all officers in this area. In 2018 we training for a total of 213 hours in mental health related areas and we will continue to increase this training in the future whenever possible.

Building & Grounds

A complete remodel of the lower level of the police department was completed. The old sergeant's office which had outgrown its usefulness was moved to a larger room that had been created by removing a wall creating one large room from two smaller ones. This additional space allowed the installation of office cubicles for a more efficient and professional work environment.

Some walls were repaired, ceiling tiles replaced, old and unused equipment sold, walls were painted and an epoxy floor was installed. A larger computer/monitor was installed in the roll call room to be used for roll call and training.

Equipment & Technology

The department purchased 12 Ford Explorers to replace the old fleet which was over six (6) years old and experiencing a large number of mechanical problems. The new squads were equipped with new computer tablets which will meet the requirements for the new county police computer system. New high definition video cameras were also installed in our vehicles which perform much better than the old system; they have additional camera coverage with more auto activation triggers and purchased at a lower overall cost than other comparable systems. An improved emergency lighting system was installed which gives better control over how emergency lights function in the hope to reduce the chances of collisions when responding to emergency calls.

The old video surveillance system within the building has some components that are over 20 years old is being replaced and expanded upon to give better coverage of the entire building. This will upgrade the system from a closed circuit TV system to a high definition digital system. Video and audio recording of interview rooms have also been expanded to meet the legal requirement for these types of recordings.

DuPage County is implementing a new software program to replace the current system, this will include dispatching squad cars, writing reports, managing records, booking arrestee's, etc. A project this large takes considerable work from both DuPage County and each participating agency. Darien has met all the requirements to move forward with this project and is currently in the software training stage before deployment which is expect to occur June 2019.

A program (Frontline) has been implemented and is working out very well. This software allows residents to go to the City's website and request overnight parking permission and vacation house checks. When an officer checks a residence that check is entered into the software and the resident is sent an email that the residence has been check along with any notes/observations the officer may enter. The software is also a database of business contact information, missing & found pets, at risk residents and tracking areas identified as needing extra patrols or special watches.

We implemented a new electronic system for scheduling employees that will reduce the amount of administrative work for those involved in scheduling and payroll.
