Municipal Analytics Program

Through Choose DuPage's Municipal Analytics Program, municipalities can gain valuable insights into their community, create data-driven strategies, and drive economic development.

With access to databases like Moody's Analytics, Lightcast, Pitchbook, Esri Business Analyst, CoStar, and more, municipalities can use this data to:

- Convey the economic impact of a project.
- Better understand trade areas.
- Gain deep consumer insights.
- Identify market potential.
- Research prospective businesses.
- Gain workforce insights.
- Get details on venture capital and private equity funding.
- Analyze traffic patterns.
- And much more!

How to access the data:

DuPage County municipalities and economic development organizations can access this data through an annual data membership offered by Choose DuPage.

Annual investment: \$5,000

The following reports will be provided based on the schedule below:

- Economic Overview Report – January & June
- Industry Overview Report – January & June
- List of Major Employers – January
- Demographic Reports – January

Additional analytics and offerings as determined by municipality and Choose DuPage – subject to GCEP approval. Custom reports will be developed based on individual requests.
